SUBJECT INDEX

Aggression, assertiveness 245
Agoraphobic fears 106, 116
Animal fears 107, 114
Anticipation of pain 66
Anxiety 119
Anxiety–depression, assertiveness 249, 267
Assertion Inventory 154
Assertiveness correlates 153–282
  cognition ideation of anxiety 252
  dominance 246
  extrapunitivity, anger-hostility and aggression 245
  instruments 159
  interpersonal values 247
  non-social fears 241
  Scale of Interpersonal Behaviour 155
  self-assessed social and interpersonal skills 242
  self-consciousness 241
  shyness 167, 181, 184, 210, 218, 238
  social cognition 244
  state and trait neuroticism 248
  treatment implications 265
Association for the Advancement in Behaviour Therapy 31
Attitude 134, 141
Attitude–Reinforcer–Discriminative theory 124, 143
Attribution 141
Aversion therapy, fear 6
Aversive stimuli, pain 59
Avoidance behaviours, pain 52, 70, 73
Awareness, verbal classical conditioning 129, 132, 138

Beck's Depression Inventory, correlates of assertiveness 165, 231
Behaviourally mediated pain responses 61
Behaviour therapy, theoretical and methodological dimensions 31–45
Belief 141
Bodily injury, death and illness fears 106
Buss–Durkee Inventory of Hostility, correlates of assertiveness 164, 189

Cognitive–behavioural perspective of pain 53
Cognition therapy, fear 2
Cognitivism vs. behaviourism 31, 42
Conditioning
  evaluative responses 123–151
  fear 1, 3
  of meaning 126
  pain 72
Contingency awareness 129, 133, 141
Contingency learning 123, 140, 145
Coping, pain 67, 69
Cross-national validity, five-components model of self-assessed fears 101–122
Culture, phobias 101

Dental phobias 4
Depression, assertiveness 249, 267
Depression Adjective Check Lists, correlates of assertiveness 163, 195, 249
Desensitization, fear 21, 24
Dog phobias 4
Dominance, assertiveness 246
Dutch Personality Inventory, correlates of assertiveness 161, 184, 205, 211, 223, 267

Evaluative responses, verbal classical conditioning 123–151
Exposure, fear-reduction 26
Extinction, fear reduction 25
Extrapunivity, assertiveness 245

Familial transmission of fear 15
Fear
  assessment 104
  biological factors 19
  causes 1, 2
  conditioning 3
  correlates of assertiveness 179, 201
  cultural variation 102
  extinction 25
  familial transmission 15
  habituation 22
  informal acquisition 17
  reciprocal inhibition 20
  therapy 2
  treatment 20
  vicarious acquisition 12
Fear Questionnaire, correlates of assertiveness 159, 175, 184, 189, 195, 205, 231, 241

Fear Survey Schedule-III 105
Food aversion 7

Gate control model of pain 50
Generalisation, verbal classical conditioning 128
Genetic predisposition to pain 56

Habituation, fear reduction 22
Hostility and Direction of Hostility Questionnaire, correlates of assertiveness 160, 175, 189, 192

Informal acquisition of fear 17
Instrumental learning, pain 70
Interpersonal sensitivity 239
Interpersonal values, assertiveness 247
Intropunivity, assertiveness 249
Introverted social shyness 257

Learning, role in response to pain 70

Manifest Anxiety Scale 139
Maudsley Personality Inventory 139
Meaning, conditioning 126
Memory activation, pain 62
MINISSA, correlates of assertiveness 173, 181, 185, 194, 203, 210, 229
Multidimensional scaling techniques 158, 172, 264

Neurotic social shyness 179, 192, 210, 218, 227, 236, 253, 257, 262, 267
Neuroticism, correlation with verbal classical conditioning 139
Nociception and pain 50

Observational learning, pain 57
Occupational factors in pain 58
Operant model of pain 51, 72
Operant procedures, verbal classical conditioning 127
Opioids, stress responses, pain 61, 68

Pain, chronic 47
  behaviours 51, 70
  conceptualizations 49
  development 54
  maintaining variables, learning processes 70
  precipitating factors: aversive external and/or internal stimuli 59
  precipitating responses: inadequate proprioception and lack of coping ability 64
  predisposing variables 56
  psychobiology 54
Paired-associate procedures 127
Panic disorder 117, 119
Paranoid Ideation 239
Parenting skills, videotape self-modeling 87
Perception, conditioning 138, 140
Perfectly-congruent weights 107
Personality Research Form — Aggression Scale, correlates of assertiveness 164, 189
Person perception 134, 137
Phobias 1–30
  biological factors 19
  causes 2
  conditioning 3
  culture 102
  extinction 25
  familial transmission 15
  habituation 22
  informal acquisition 17
  reciprocal inhibition 21
  treatment 20
  vicarious acquisition 12
Physical symptoms, perception and interpretation 64
Prepared fears 6, 16, 20
Psychogenic pain 50

Rathus Assertiveness Schedule, correlates of assertiveness 163, 205, 243, 245
Reciprocal inhibition, treatment of fear 21
Respondent conditioning, pain 52, 72
Response stereotypy, pain 60

Scale for Assessing Attitudes to Females' Social Roles, correlates of assertiveness 162, 175
Scale of Interpersonal Behaviour 154
  construct validation 157
  correlates of assertiveness 175
Scale for Interpersonal Values 223, 247
Self-assessed fears, cross-national validity of five-components model 101–122
Self-consciousness, shyness 168

Self-Consciousness Scale, correlates of assertiveness 159, 175, 179, 184, 205, 241
Self-efficacy
  pain 68
  videotape self-modeling 88
Self-esteem, assertiveness 249
Self-modeling, videotape 85–89
Sensitization, habituation training 23
Sex, self-assessed fears 107
Sex-role traditionalism 181
Sexual and aggressive fears 107
Shyness, correlates of assertiveness 167, 181, 184, 210, 218, 238, 253, 270
Shyness Scale, correlates of assertiveness 161, 184, 205
Snake phobia 12
Social Anxiety Scale, correlates of assertiveness 162, 184
Social Cognition, correlates of assertiveness 163, 205, 211, 244
Social fears
  assertiveness 106, 175, 179, 189, 203, 239
  treatment 265
Social learning
  pain 52
  videotape self-modeling 87
Social Situations Questionnaire, correlates of assertiveness 162, 189, 242
Somatization 119
Somatiform pain 51
State–Trait Anxiety Inventory, correlates of assertiveness 165, 231, 248, 252
Stress-induced analgesia 61
Stressors, pain 59
Survey of Interpersonal Values 165
Symptom Checklist-90-R, correlates of assertiveness 161, 195, 231, 250

Traumatic stimulation, fear 4

Verbal classical conditioning of evaluative responses 113–151
Verbal operant conditioning 133, 141
Videotape self-modeling, therapeutic use 85–99
